

the largest tractor and engine show in Texas

# heritage

Texas Early Day Tractor and Engine Association (TEDTEA) is a club of over 350 like minded individuals dedicated to the preservation and exhibition of historical equipment. Each year, during the first weekend in October, the association host the largest tractor and engine show in Texas. Over 2,000 visitors come each year to the association's permanent showgrounds located right off I-35 in north Temple. It's the largest and most unique show in Texas with over 400 tractors, 200 small engines, 40 antique trucks and permanent large engines. It's a weekend packed with food, fun and educational activities for the whole family: barbeque plates, homemade ice cream, tractor pulling, cotton ginning, corn shelling, and wheat thrashing.

The October show is TEDTEA's largest fundraiser of the year. Money raised from the show is used for maintenance of the historical buildings/equipment and acquisition of new displays. Sponsorship in TEDTEA's October show also provides the club the unique opportunity to serve the community by supporting local groups and athletic programs.

TEDTEA's broad member base and yearly exhibitors come from all over the United States. The majority of visitors are from Central Texas. This diversity provides sponsors great exposure. TEDTEA can adjust booth spaces for sponsors wishing to set up exhibits that exceed the areas listed in the packages.
